The Chicago, Rock Island and Pacific Rallroad Company has \$71,353,500 collateral trust 4 per cent bonds outstanding, secured by a like amount of the stock of the Chicago, Rock Island and Pacific Rallway Company.

Dividends on the railway company stock are the only source of income of the railroad company, and have been used to pay the interests on the bonds. The bonds have recently been weak in anticipation of the plan for dissolving the Rock Island holding companies.

Dividends have been naid by the

companies.

Dividends have been paid by the railway company at from 2 to 8 1-4 per cent a year since 1891. Last year 5 per cent was paid.

The railway company asked the Illinois Public Utilities Commission today for permission to issue \$7,500,000 two-year 6 per cent notes. The price of the company's bonds at present is such that they prefer to offer short term notes. The sum of \$3,500,000 will be spent shortly for improvements and additions.

ENCOUNTERS BURGLAR

without the slightest thought of danger, Mr. Owens opened the front door with his latch key. As he stepped into the hall he almost collided with the negro. The latter struck him a stunning blow in the face, and the two clinched. In the encounter Mr. Owens's shirt was almost torn from his back. The housebreaker, described as being short and stout, broke away, ran the length of the hall, and disappeared through the rear door. Investigation showed that the negro had opened the door with a failed key, which he lett in the lock. He evidently had entered the house for the purpose of robbery, but Mr. Owens's unexpected return prevented him from carrying out his plan.
